WASHINGTON DC 20001-4413

Applicant: Bradbury, et al.  
Appl. No.: 10/571,991  
International Filing Date: September 15, 2004  
Title: QUINAZOLINE DERIVATIVES  
Attorney Docket No.: 09963.0008  
Pub. No.: US 2008/0096881 A1  
Pub. Date: April 24, 2008

**COPY MAILED**

**MAR 10 2009**

**OFFICE OF PETITIONS**

This is a decision on the request for a corrected patent application publication under 37 CFR 1.221(b), received on July 24, 2008, for the above-identified application. Applicant requests that the application be republished because the patent application publication contains a material error in paragraph [0034].

The request is DISMISSED.

Applicant requests that the application be republished because the patent application publication contains a material error in paragraph [0034] of the specification, wherein the subscript "m" in the formula is misprinted as "n".

37 CFR 1.221 (b) is applicable "only when the Office makes a material mistake which is apparent from Office records.... Any request for a corrected publication or revised patent application publication other than provided as provided in paragraph (a) of this section must be filed within two months from the date of the patent application publication. This period is not extendable." A material mistake must affect the public's ability to appreciate the technical disclosure of the patent application publication, to determine the scope of the patent application publication, or to determine the scope of the provisional rights that an applicant may seek to enforce upon issuance of a patent.<sup>1</sup>

The error in the publication wherein the subscript "m" is misprinted as "n" in paragraph [0034] may be an Office error, but it is a not material Office error under 37 CFR 1.221. The error is due to the quality of the text, which is small and blurry. The text is not clear due to the size and it's blurry, which makes it difficult to electronically reproduce by digital imaging and optical character recognition. See 37 CFR 1.52 and PCT Rule 11.9(d)(1).

<sup>1</sup>Changes to Implement Eighteen-Month Publication of Patent Applications, 65 FR 57023, 57038 (Sept. 20, 2000), 1239, Off. Gaz. Pat. Office Notices 63, 75 (Oct. 10, 2000) (final rule).

Applicant is advised that he may want to file application papers that are clearer, as the error is due to the quality of the text. The text is small and blurry, which makes it difficult to read and to electronically reproduce by digital imaging and optical character recognition. Applicants have been advised to file applications having cleaner and larger text with sufficient clarity and contrast to permit reproduction, such as electronic reproduction by digital imaging and optical character recognition, which will avoid errors in the patent application publication process. See 37 CFR 1.52 and PCT Rule 11.9(d)(1).

Applicants are advised that a "request for republication of an application previously published" may be filed under 37 CFR 1.221(a). Such a request for republication "must include a copy of the application in compliance with the Office electronic filing system requirements and be accompanied by the publication fee set forth in § 1.18(d) and the processing fee set forth in § 1.17(i)." If the request for republication does not comply with the electronic filing system requirements, the republication will not take place and the publication fee set forth in § 1.18(d) will be refunded. The processing fee will be retained.

A guide for filing a request for a Pre-Grant Publication, such as a request for republication, may be found on the link below:

<http://www.uspto.gov/ebc/portal/tutorials.htm>

Any request for republication under 37 CFR 1.221(a) must be submitted via the EFS system as a "Pre-Grant Publication" and any questions or request for reconsideration of the decision should be addressed as follows:

By mail to: Mail Stop PGPUB  
Commissioner for Patents  
P.O. Box 1450  
Alexandria, Va. 22313-1450

Inquiries relating to this matter may be directed to Mark Polutta at (571) 272-7709.
